## (GB) UNITED KINGDOM

NOTE: *British program completion awards are of two types: academic and professional degrees and other awards granted by educational institutions, and credentials certifying completion of study programs and passage of examinations granted by professional associations. The United Kingdom also possesses three internal education systems: one for England and Wales, one for Scotland, and one for Northern Ireland. Awards granted in all three systems are listed as appropriate.*

*In the listing below, academic and professional degree awards are listed first, followed by a listing of known professional credentials corresponding to various degree levels. The two lists are separated by a dash line (\_\_\_\_). This arrangement avoids the confusion that might follow from mixing different credentials in a single list.*

*Many member states of the British Commonwealth, as well as non-members, have arrangements whereby their citizens may earn British degrees and other credentials. Reference to the listing for the United Kingdom is indicated under the heading for each country known to have such an arrangement.*
